## **CWNP add two new members to its CWNE Board of Advisors**

DURHAM, NC – February 1, 2017 – Certified Wireless Network Professional (CWNP®) announces Seppi Dittli and James Garringer as the newest members of its CWNE Advisory Board.

The board serves a vital function for CWNP, reviewing applications of those individuals seeking to earn a Certified Wireless Network Expert (CWNE) designation — one of the most advanced certifications in the wireless industry today. Moreover, as members of the six-person board, Dittli and Garringer will bring fresh insight and ideas to a growing collective of more than 200 CWNEs worldwide

“Their combined experience and accomplishments really elevate the profile of the CWNE Advisory Board as well as the CWNP brand as a whole,” says CWNP GM, Rameshwar Nigam.

Seppi Dittli works as consulting systems engineer for Cisco Meraki in Switzerland as well as Austria. After completing his studies in electronic and electric engineering, he joined Cisco in 1999 as systems engineer in the Service Provider Market. CWNE-certified himself, Dittli has broad networking knowledge, particularly in mobility solutions, and brings close to twenty years of hands-on experience to the CWNP Advisory Board.

Mr. Garringer is a senior consulting engineer specializing in Wi-Fi and networking for customers in education, healthcare and enterprise markets throughout the United States. He too is a Certified Wireless Networking Expert and in addition to serving on the CWNE Advisory Board, also serves on the global WLAN Advisory Board.

“It’s an honor to serve alongside these two wireless giants,” says fellow board member, Martin Ericson, “I am grateful for their commitment and leadership and look forward to working them to help guide the next generation of CWNEs.”
