Ulises Cazares

Pre-Sales Engineer

Migesa

CWNE #474

What is your level of industry experience?

10+ years in Networking and Wireless.

Where did you receive your training/education?

I've gotten almost all the certifications using the approved study guides, books and free e-Learning from vendors. There is no budget to take classes at my company.

When did you first become interested in wireless?

When I landed my first real world employment. The company was a full Cisco shop and I had to learn wireless so I could maintain and troubleshoot. I was already familiar with LAN and security devices.

What certifications do you currently hold?

- Aruba Expert (x2), Aruba Professional (x5), Aruba Specialist (x2)
- Silver Peak Expert (SPSX)
- F5-CTS BIG-IP LTM, F5-CTP Sales
- HPE Master ASE FlexNetwork Solutions, HPE ATP Hybrid IT Solutions
- VMware VCP (x2)
- ITIL V3

Why did you choose the CWNE path?

I chose it to challenge myself and validate my years of wireless experience.

How long have you been involved in the CWNP certification process?

I started the process in 2019/2020 when I took the first 4 exams (CWNA/CWDP/CWSP/CWAP) and continued with it in 2022 taking the CWISA exam and submiting my CWNE application.

What was the hardest part of the whole process and how did you overcome it?

Believing that I could achieve it, because I thought I didn't have all the requirements needed. The exams are the easy part.

What value will your CWNE provide to you, your clients, and/or your company?

The path has made me a better Wi-Fi engineer than I was before this track.

To whom would you recommend the CWNE program?

To everyone who wants to have a deep understanding of Wi-Fi networks and wants to keep learning.
