Ram Krishnan Earns a CWNE® —
One of the Most Respected Designations in the IT Industry Today.
Ram Krishnan is the 169th Wireless Professional to Join the Certified Wireless Network Experts Ranks,
the Prestigious Last Step in the CWNP Program

</div>

DURHAM, N.C., November 14, 2015 – CWNP, LLC (Certified Wireless Network Professional), has announced Ram Krishnan as the newest Certified Wireless Network Expert (CWNE®). Krishnan becomes only the 169th person worldwide to hold this prestigious title, recognized as one of the 10 most difficult designations to earn within the IT industry. The CWNE certification assures that the newly certified wireless professional has mastered all of the skills required of, and measured by CWNP, including design, installation, configuration as well as the ability to administer and troubleshoot wireless network systems. CWNE professionals are typically at the pinnacle of their respective fields, skilled at advanced design, protocol analysis, intrusion detection and prevention, performance and quality of service (QoS) analysis, and spectrum analysis and management.

Based in Singapore, Krishnan works as a Product Engineer for Hewlett Packard Enterprise. His main charge is to provide Level 3 product support to various HPE networking – WLAN products. His numerous career highlights, including the deployment of various vendor products, such as Cisco, HP, and NCR. In the Technical Solutions Consultancy, Mr. Krishnan has successfully provided support to various HP networking products related to routing, switching, wireless and VOIP.

"CWNP is proud to name Ram Krishnan as our newest CWNE," said Brad Crump, General Manager of CWNP. "His experience in wireless networking is an asset to our growing list of top wireless professionals and it will go a long way toward advancing his own personal career in wireless," adds Crump. "The CWNE is a tremendous accomplishment, not only for Mr. Krishnan, but also for his many clients and stakeholders."

"CWNP is the only organization to provide well-organized and vendor-neutral certification program in the area of wireless LAN," says Krishan. "Being certified as an expert, I feel confident to educate on how things work in certain way when it comes to wireless." adds Krishnan. "As a newly minted CWNE, I look forward to learning from other members of this community and spread the knowledge."
